## PERFORMANCE INDICATORS

- Record financial transactions in compliance with generally accepted accounting and reporting standards (both global and local) for sole proprietorships, partnerships, corporations, government and not-for-profit- organizations.
- Prepare accountancy reports such as budgets and business plans using appropriate framework.
- Conduct financial and operational audits of all types of business enterprise and not-so-profit organization.
- Prepare individual and corporate income tax returns and conduct basic tax planning in compliance with relevant legislations and regulations.
- Perform cost-benefit analysis for management decisions.
- Design and implement a management control and performance system.
- Communicate effectively the results of financial analysis.
- Design an appropriate research plan
- Prepare a critical review of related literature
- Analyze results of study and discuss implications and contributions to body of knowledge
- Presents findings and conclusions of the study
- Communicate effectively the recommendations.
- Customize an accounting software to a particular business entity
- Develop a financial model using a spreadsheet software
- Analyze performance of a particular business entity using appropriate accounting software tools and functions.
- Perform accounting-related work in actual workplace based on preset standards
- Pass licensure examinations or qualify for professional accreditations/certifications.
- Promote adherence to legitimate and acceptable ethical objectives of an organization.
- Communicate limitations or other constraints that would preclude responsible judgment or successful performance of an activity such as in the practicum or on-the-job training.

## PROGRAM OUTCOMES

- Resolve business issues and problems, with a global and strategic perspective using knowledge and technical proficiency in the areas of financial accounting and reporting cost accounting and management, accounting and control, taxation and accounting information systems.
- Conduct accountancy research through independent studies of relevant literature and appropriate use of accounting theory and methodologies.
- Employ technology as a business tool in capturing financial and non-financial information, generating reports and making decisions.
- Apply knowledge and skills that will successfully respond to various types of assessments (including professional licensure and certifications).
- Confidently maintain a commitment to good corporate citizenship, social responsibility and ethical practice in performing functions as an accountant.
